Weetwood Ales

We are a small local brewery situated just outside the country village of Tarporley, where we produce quality and distinctive cask conditioned beers to suit the most discerning of palates.

If you are in a position to be able to stock a cask beer as a 'guest' or on a more permanent basis, we can demonstrate a competitive market price for our products, which are extremely popular and enjoy a high turnover in whichever outlet they are sold.

We would be delighted to supply you and share in the success of our unique and distinctive locally produced beers and look forward to your future enquiries.
